

The Clothing Cove — Filter & Search Readiness Plan

Audit date: June 10, 2026 | theclothingcove.com | Goal: make the catalog searchable by color, size, type, brand & material | Scope: in-stock products

FILTERS LIVE TODAY

2 of 6

Availability and Price only

APPAREL MISSING SIZE

152

In-stock apparel & footwear without a Size option

PRODUCTS MISSING COLOR

4,194

In-stock products that carry colors but have no Color option

COLOR SWATCH-READY

10.3%

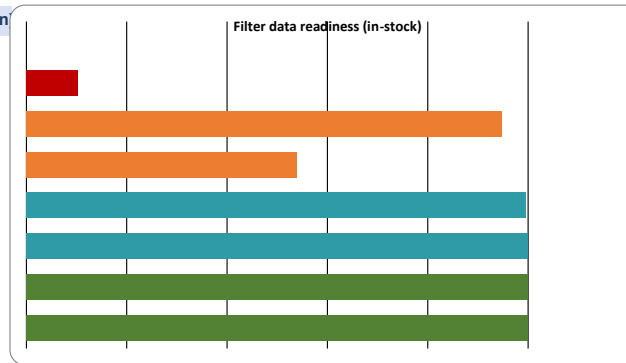

1,201 products mapped to the palette metafield

OBJECTIVE

Make the in-stock catalog searchable by the filters shoppers expect — color, size, garment type, brand and material. Each filter requires its product metadata to exist, be standardized, and be enabled in the storefront. The plan below brings each filter to that state, in priority order.

FILTER READINESS AT A GLANCE (see 'Filter Readiness Map' for the full plan)

Target filter	Products ready	In scope	Data readiness
Availability	11,693	11,693	100.0%
Price	11,693	11,693	100.0%
Brand	11,693	11,693	100.0%
Garment type	11,642	11,693	99.6%
Color (option)	4,891	9,085	53.8%
Size (option)	2,757	2,909	94.8%
Color swatches	1,201	11,693	10.3%
Material / fabric	0	11,693	0.0%

ATTRIBUTE GAPS BY PRIORITY (in-stock products to update)

Attribute gap (priority order)	Products
1 — Apparel & footwear missing a Size option	95
2 — Apparel missing a Color option	161
3 — Accessories missing a Color option	1,049
4 — Jewelry missing a Color option	2,999
Total products to update	4,304

CATALOG OVERVIEW

Status	Products	% of active
In stock	11,693	32.4%
Out of stock (still published)	24,354	67.6%
Active products (total)	36,047	100.0%
Draft products (not published)	912	

Two-thirds of the published catalog is out of stock — those pages dilute filtering, search, and SEO.
